ABOUT EOS SECURE

EOS-Secure has been the leading manufacturer of mechanical lock cylinders since 2011, passing ISO9001 and ISO14001 certificates. We mainly focus on the patent technology lock cylinders with extreme precision. By investing in imported branded CNC machines and quality testing machines, cultivating highly-skilled engineers, we are the only choice for you in high-precision security lock cylinders in China. EOS-Secure has over 65 patents in the lock cylinder industry, which shows our concentration level in the R&D sector. Our cylinder products are widely promoted by lock-cylinder professional brands, door manufacturers, locksmiths, DIY hardware shops, architectural companies, traditional hardware dealers, and so on.

With over ten years of industrial experience, we are a professional manufacturer that understands our clients very well. We mainly export the lock cylinders to Europe, Russia, North America, South East Asia, South America, Middle East Area, and so on. Welcome OEM/ODM customers and customers who want to be our Agents.

Featured CNC Machines

TSUGAMI CNC SWISS-TYPE AUTOMATIC LATHE MACHINES

- Controlling the machining tolerance within 0.01mm.
- Produce high precision and complicated products.
- Quick response sampling service.
- Quick mass production machining speed.
- Low MOQ requirement.

Featured CNC Machines

CNC LATHING-TURNING -MILLING-DRILLING MACHINES

- Controlling the machining tolerance within 0.02mm.
- Customize high precision complicated lock cylinders.
- Quick response sampling service.
- Low MOQ requirement.

Featured CNC Machines

CNC 4-AXIS MACHINING CENTERS

- Controlling the machining tolerance within 0.02mm.
- Produce high precision and complicated products.
- Quick response sampling service.
- Quick mass production machining speed.
- Low MOQ requirement.

Featured CNC Machines

CNC AUTOMATIC ROBOT ARM LATHING MACHINES

- CNC lathing and drilling in one catch.
- Controlling the machining tolerance within 0.03mm.
- Quantities of machines: 6 sets.

NEW!

ACTIVE PIN AND PASSIVE PIN LOCK CYLINDER WITH PATENT MOON SHAPE PASSIVE PINS AND WAVE ANTI-PICK PINS

- Patent wave anti-pick pins increase the performance of anti-picking.
- Patent moon passive pins increase the performance of anti-copy.
- Huge key combination.
- Super anti-pick, anti-bump, anti-copy performance.
- Option to pass EN1303 highest grade and SKG*** security certificate.
- Master key system available.
- Modular system cylinder optional.

P1**NEW!**

TELESCOPIC PIN LOCK CYLINDER WITH PATENTED MOVE ELEMENT

- Patented move element on key blanks to protect your profits.
- Customize different keyways to protect your profits.
- Easy to make key duplicate.
- Precision lock cylinder, you can assemble complete cylinders locally with just parts.
- Customize your logo on the product and packing.
- Available for making master key system.
- Available with key code card.
- Customize to pass security cylinder certificate.
- Optional to make modular system.
- Optional double-entry function.
- Optional to pass EN1303 highest grade and SKG*** security certificate.

The roller firstly goes upwards,
then the groove inside the plug
changes the direction of the roller.

The roller goes downwards
and touch the special pin.
The plug meets the shear line.

P2

NEW!

DIMPLE PIN LOCK CYLINDER WITH PATENTED MOVE ELEMENT

- Patented move element on key blanks to protect your profits.
- Customize different keyways to protect your profits.
- Easy to make key duplicate.
- Precision lock cylinder, you can assemble complete cylinders locally with just parts.
- Customize your logo on the product and packing.
- Available for making master key system.
- Available with key code card.
- Customize to pass security cylinder certificate.
- Optional to make modular system.
- Optional double-entry function.
- Optional to pass EN1303 highest grade and SKG*** security certificate.

The roller firstly goes upwards,
then the groove inside the plug
changes the direction of the roller.

The roller goes downwards
and touch the special pin.
The plug meets the shear line.

P3

NEW!

MASTER KEY SYSTEM LOCK CYLINDER WITH PATENTED MOVE ELEMENT

- Patented move element on key blanks to protect your profits.
- Customize different keyways to protect your profits.
- Easy to make key duplicate.
- Precision lock cylinder, you can assemble complete cylinders locally with just parts.
- Customize your logo on the product and packing.
- Available for making master key system.
- Available with key code card.
- Customize to pass security cylinder certificate.
- Optional to make modular system.
- Optional double-entry function.
- Optional to pass EN1303 highest grade and SKG*** security certificate.

The blue part limits the yellow key pin to go inside of the plug.

Inserted with the right key with roller. The roller will push the blue part backwards, so the yellow key pin goes into the plug.

P4

NEW!

ACTIVE PIN WITH PASSIVE PIN LOCK CYLINDER WITH PATENTED MOVE ELEMENT AND ANTI PICK SLIDER

- Patented move element and anti pick slider on key blanks to protect your profits.
- Active pin with passive pin lock cylinder structure.
- Customize different keyways to protect your profits.
- Easy to make key duplicate.
- Convenient to assemble small-scale master key system by using the passive pins.
- Precision lock cylinder, you can assemble complete cylinders locally with just parts.
- Customize your logo on the product and packing.
- Available for making master key system.
- Available with key code card.
- Customize to pass security cylinder certificate.
- Optional to make modular system.
- Optional double-entry function.
- Optional to pass EN1303 highest grade and SKG*** security certificate.

Patented Slider for Anti-Pick

P5

NEW!

DOUBLE ROW DIMPLE PIN LOCK CYLINDER WITH PATENTED MOVE ELEMENT

- Patented move element on key blanks to protect your profits.
- Customize different keyways to protect your profits.
- Easy to make key duplicate.
- Precision lock cylinder, you can assemble complete cylinders locally with just parts.
- Customize your logo on the product and packing.
- Available for making master key system.
- Available with key code card.
- Customize to pass security cylinder certificate.
- Optional to make modular system.
- Optional double-entry function.
- Optional to pass EN1303 highest grade and SKG*** security certificate.

The cylinder is locked.

Inserted with the right key with roller. The roller will be pushed by the green pin and work with the yellow key pin.

- Precision lock cylinder, you can assemble complete cylinders locally with just parts.
- Customize your logo on the product and packing.
- Available for making master key system.
- Available with key code card.
- Optional to make modular system.
- Optional double-entry function.

Anti Pick Keyway

S1 / S2

MODULAR,
QUICK, SECURE

Optimize Your Stocks

- The modular system makes it possible to optimize your stocks and immediately satisfy the requests from the customers.
- With the stainless steel modular bridge, and anti-drilling pins inside of the plug, the security of the cylinder could be maximum.

All Components You Need for Any Dimensions

- EOS-Secure provides all the components for assembling the modular cylinders.
- Modular sizes starting from shortest 30mm+30mm. With extensions of 5-10-20mm to satisfy any assembling needs in less than a minute.

8 sizes of connecting bridges to assemble most common lengths
